# YOUANDME (LOCO DICE REMIX)

The techno duo deliver more fire via Desolat

MIXMAG STAFF | 4 SEPTEMBER 2015

Berlin-based techno duo Martin and Daniel, otherwise known as youANDme, have been churning out well-crafted, underground beats since 2008 and the list of people they've worked with is pretty impressive.

They've remixed the likes of Moodymann, Radio Slave and Seth Troxler and collaborated with techno demons like Dario Zenker, Mark Broom and Ilario Alicante.

Their analogue, machine-based sound has won plaudits the world over and now youANDme head over to Desolat for another perfectly-crafted EP in the form of 'Take Away' ft Black Soda.

The stellar original has received the remix treatment from the Desolat boss and all-round big dog Loco Dice and the result? A steely, chunky, bass-heavy roller that you can see doing serious damages on the terraces and beyond. Check it.

*The 'Take Away' EP will be released on September 11 via Desolat, the vinyl is out now*
